Purina

Diets kept in stock

CV Feline – 5.5oz cans

What is it for – Critical care, highly digestible, supportive nutrition, loss of appetite & feeding tube cats

Corresponding Diets – SD a/d, Eukanuba Maximum Calorie

DCO K9 – 8#, 20#

What is it for – Diabetes in dogs, colitis, constipation, increased fiber and carbs

Corresponding Diets – SD w/d, Purina OM, RC Diabetic HF

DM Feline – 6#, 12#, 5.5oz cans

What is it for – Diabetes in cats, IBD, diarrhea, high-protein, low carbs

Corresponding Diets – Purina OM, RC Diabetic DS, SD m/d

EN Feline – pouches, dry & canned

What is it for – IBD, diarrhea, gastritis, high digestibility, low fiber

Corresponding Diets – Eukanuba Low Residue, SD i/d, RC Intestinal HE

OM K9/Feline – K9 8#, 20#, 35#, K9 Cans, Feline 8#, (18# special order), Feline Cans

What is it for – Obesity, diabetes, low fat, low calorie, high fiber, high protein:calorie ratio

Corresponding Diets – **NB Reduced Calorie K9/Feline**, Eukanuba Restricted Calorie, RC Calorie Control, RC Hifactor, SD w/d, SD r/d, Purina DCO K9

UR St/Ox Feline – (4# special order), 8#, 18#, 5.5oz cans

What is it for – Calcium Oxalate & Struvite associated Feline Lower Urinary Tract diseases

Corresponding Diets – RC Urinary SO Feline, SD c/d Multicare Feline

Struvite Uroliths only – SD c/d K9/Feline, Eukanuba Low Ph/S Feline, RC Control K9/Feline

Calcium Oxalate Uroliths only – SD u/d K9, SD x/d Feline, Eukanuba Moderate Ph/O Feline, Modified K9/Feline, Purina NF K9/Feline

Special Order Diets

CV K9 – 12.5oz cans

What is it for – Critical care, highly digestible, nutritional support, loss of appetite

Corresponding Diets – SD a/d, Eukanuba maximum calorie

EN K9 – 8#, 20#, 35#, 12.5oz cans

What it is for – IBD, Pancreatitis, diarrhea, gastritis, enteritis, low in fiber diet

Corresponding Diets – **Eukanuba Low Residue**, RC Intestinal HE, SD i/d

HA K9 – 8#, 18.5#, 35#

What it is for – Food allergy / intolerance, Pancreatitis, IBD, vegetarian diet, hydrolyzed protein, single carb

Corresponding Diets – RC Hypoallergenic HP, SD z/d

LA K9 – 8#, 20#, 35#

What it is for – Adverse food reaction, IBD, inflammatory skin conditions, single protein, single carb

Corresponding Diets – Purina HA with Veterinarian supervision only

NF K9/Feline – K9 8#, 20#, 37.5#, 12.5oz cans, Feline 8#, 18#, 5.5oz cans

What it is for – Kidney disease / Renal failure

Corresponding Diets – RC Modified, RC Renal LP, RC K9 Renal MP, Eukanuba Low Residue, SD k/d

Royal Canin (RC) – IVD/Waltham

Diets kept in stock

Urinary SO K9/Feline – K9 5.5#, 16.5#, 35#, cans; Feline 2.5#, 5.5#, 16.5#, cans

What it is for – Prevention and dissolution of Struvite Uroliths and prevention of Calcium Oxalate Uroliths

Corresponding Diets – Purina UR St/Ox Feline, SD c/d Multicare Feline

Struvite Uroliths only – SD c/d K9/Feline, Eukanuba Low Ph/S Feline, RC Control K9/Feline

Calcium Oxalate Uroliths only – SD u/d K9, SD x/d Feline, Eukanuba Moderate Ph/O Feline,

Modified K9/Feline, Purina NF K9/Feline

Limited Ingredient – Duck & Green Pea Feline – 8#, cans

What it is for – Elimination diet for food allergy / intolerance, IBD

Corresponding Diets – **NB Adult Feline Venison**, RC Green Pea & Rabbit, Venison & Lamb, SD d/d

Modified K9/Feline – K9 20#, 14oz can, (8.8# special order); Feline 4.4#, 10#, 6oz can, (14oz special order)

What it is for – Kidney / Renal disease

Corresponding Diets – Eukanuba Low Residue, RC Renal LP, RC Renal MP, Purina NF, SD k/d

What it is for – Liver disease

Corresponding Diets – Purina NF, RC Renal LP, SD l/d

What it is for – Calcium Oxalate and Urate Crystals

Corresponding Diets – Purina NF, SD u/d K9

*We recommend Potassium Citrate as a supplement to be given with these diets (call for more details)

Special Order Diets

Calorie Control High Fiber K9/Feline – K9 6#, 17#, 33#, 14oz cans, Feline 6#, 17#, 6oz cans

Calorie Control High Protein K9/Feline – K9 5#, 16#, 33#, 12.7oz cans, Feline 5#, 16#, 5.8oz cans

What it is for – Weight control

Corresponding Diets – **NB Reduced Calorie**, Eukanuba Restricted Calorie, Purina OM

Control K9/Feline – K9 8.8#, 20#, 39.6#, 14oz cans, Feline 4.4#, 10#, 20#, 6oz cans, 14oz cans

What it is for – Prevention of Struvite Crystalluria & Urolithiasis

Corresponding Diets – Eukanuba Feline Low PH/S, RC Urinary SO, Purina UR, SD c/d

Intestinal HE K9/Feline – K9 7#, 20#, 35#, 14oz cans, Feline 7#

What it is for – Intestinal disorders, pancreatitis, diarrhea, colitis, IBD, dietary indiscretion

Corresponding Diets – Eukanuba Low Residue, Purina EN, SD i/d

Limited Ingredient K9 – Potato & Duck, Rabbit, Venison, Whitefish – 10#, 20#, 14oz cans

What it is for – Food allergy / intolerance, IBD, single protein, single carb

Corresponding Diets – **NB Duck & Potato or Venison**, Eukanuba Response FP/KO, Purina LA, SD d/d

Limited Ingredient Feline – Green Pea & Rabbit, Venison & Lamb – 8#, 5.5oz cans

What it is for – Food allergy / intolerance, IBD, single protein, single carb

Corresponding Diets – **NB Venison Feline, RC Duck & Green Pea**, SD d/d, Eukanuba Response LB

Eukanuba

Diets kept in stock

Low Residue K9/Feline – Puppy 8#, K9 Adult 5#, 15#, 30#, cans, Feline 5.5#, cans

What is it for – Intestinal disorders, pancreatitis, diarrhea, colitis, IBD, dietary indiscretion

Corresponding Diets –RC Intestinal HE, SD i/d, Purina EN, Purina DCO K9

Low PH/S Feline – 5.5#, 10#, (20# special order), 6oz cans, (14oz cans special order)

What is it for – Prevention of Struvite Crystals associated with Feline Lower Urinary Tract disease

Corresponding Diets – SD c/d, SD c/d Multicare, RC Urinary SO, Purina UR St/Ox

Special Order Diets

Response FP/KO K9 – 6#, 15#, 30#, 14oz can (FP only)

What is it for – Food allergy / intolerance,

Corresponding Diets – **NB Duck & Potato or Venison**, RC Duck & Potato, Rabbit & Potato, Venison & Potato, Whitefish & Potato, SD d/d,

Restricted Calorie K9/Feline – K9 5#, 14#, 28#, Feline 4.5#, 11#, 20#

What is it for – Weight loss

Corresponding Diets – **NB Reduced Calorie**, Purina OM, RC Calorie Control, SD r/d, SD w/d

Maximum Calorie – 6oz cans

What is it for – Critical care, highly digestible, nutritional support, loss of appetite

Corresponding Diets – Purina CV, SD a/d

Hills Science Diet (SD)

Diets kept in stock

a/d K9/Feline – 5.5 oz cans

What it is for – Critical care, highly digestible, nutritional support, loss of appetite

Corresponding Diets – Purina CV, Eukanuba Maximum Calorie

c/d K9/Feline – K9 10#, 20#, (40# special order), cans; Feline 4#, 10#, (20# special order), cans

What it is for – Prevention of Struvite Crystals

Corresponding Diets – Eukanuba Low PH/S, RC Control, Purina UR, RC Urinary SO, SD c/d Multicare

i/d K9/Feline – K9 10#, 20#, (40# special order), cans; Feline 4#, (10# special order), cans

What it is for – Intestinal disorders, pancreatitis, diarrhea, colitis, IBD, dietary indiscretion

Corresponding Diets – Eukanuba Low Residue, Purina EN, RC Intestinal HE

k/d K9/Feline – K9 10#, 20#, (40# special order), cans; Feline 4#, cans, (10# special order)

What it is for – Kidney / Renal disease

Corresponding Diets – RC Modified, RC Renal LP, RC K9 Renal MP, Eukanuba Low Residue, Purina NF

r/d K9/Feline – K9 10#, 20#, (30# special order), cans; Feline 4#, cans (8.5#, 17.6# special order)

What it is for – Reduced Calorie diet (do not feed r/d to a diabetic pet)

Corresponding Diets – **NB Reduced Calorie**, Eukanuba Restricted Calorie, Purina DCO, Purina OM, RC Calorie Control High Fiber or High Protein, RC Hifactor, SD w/d

t/d K9/Feline – K9 5#, (15#, 25# special order), 5# small bites, Feline 4#, (10# special order)

What it is for – Teeth/Dental diet (to be used for treats only)

Corresponding Diets – **Solid Gold Dragon's Teeth / Dragonette Treats**

w/d K9/Feline – K9 10#, 20#, (30# special order), cans; Feline 4#, cans (8.5#, 17.6# special order)

What it is for – weight diet/diabetes

Corresponding Diets – **NB Reduced Calorie**, Eukanuba Restricted Calorie, Purina DCO, Purina OM, RC Calorie Control High Fiber or High Protein, RC Hifactor, SD r/d

z/d K9/Feline – K9 Ultra 18#, K9 cans, (8#, 27.5# special order), Feline 4#, Feline cans, (10# special order)

What it is for – Food allergy / intolerance

Corresponding Diets – Purina HA, RC Hypoallergenic HP

Special Order

d/d K9 Dry – Potato & Duck, Salmon & Venison and Rice & Egg – 8#, 17.6#

d/d K9 Canned – Duck, Lamb, Salmon and Venison – 13oz cans

d/d Feline Dry – Green Pea & Duck, Rabbit & Venison – 3.5#, 8.5#

d/d Feline Canned – Duck, Rabbit and Venison – 5.5 oz cans

What it is for – adverse food reactions, food allergy/intolerance

Corresponding Diets – **NB K9 Duck & Potato or Venison Dry, NB K9 Duck or Venison Canned, NB Feline Venison Dry & Canned**, RC K9 Potato & Duck, Rabbit, Venison or Whitefish, RC Feline Green Pea & Duck, Rabbit, Venison & Lamb, Eukanuba K9 Response FP/KO, Eukanuba Feline Response LB, Purina K9 LA

u/d K9 – 10#, 30#, 13oz cans

What it is for – Calcium Oxalate, Urate and Cystine crystal management

Corresponding Diets – RC Modified, Purina NF

*We recommend Potassium Citrate as a supplement to be given with these diets (call for more details)

x /d Feline – 4#, 5.5oz cans

What it is for – Oxalate Management associated with Feline Lower Urinary Tract Disease

Corresponding Diets – RC Urinary SO, Purina UR St/Ox, Eukanuba Moderate pH/O, SD c/d Multicare

FOODS FOR YOUR PETS' CONDITION

Food Allergy/intolerance, IBD – single protein, single carb
